

RICHARD CLOUGH – CV

0402 942 708
richardjclough@gmail.com

I'm a Front End Developer and Digital Designer from Melbourne who has worked in Advertising, Start-ups, NFPs, On-line learning, Graphic Design and print.

I'm experienced in designing/building responsive websites and eDMs, and coding in html5, css, jQuery, javascript and some php and Vue.js.

I'm also skilled in video production and Project Management. I like working on new ideas, being a part of challenging projects and bringing these projects to fruition.

2019 [Introduction to React](#)

EMPLOYMENT

OUTDOOR EDUCATION GROUP

March - 2019 to March 2020 (1 year full time role but stood down due to Covid-19)

The Outdoor Education Group organises camps for secondary school students ranging in length from weekends to a few weeks. It empowers students to become more resilient and to gain an appreciation for the outdoors.

Web Developer

Skills demonstrated

Technology: html, css, vue.js, php, javascript, jQuery, UI and GIT

Organisational Skills: Working on multiple projects simultaneously, tracking work schedule via Clubhouse project management tool.

Roles and Responsibilities

- Working in a team of 3 comprising a Senior Developer and a Project Manager. Helping to code and design internal web based staff portals and utilising UI skills to make sure all pages were visually consistent.
- Taking briefs from the Project Manager that were made up in Balsamiq and building pages from scratch using the Fat-Free php framework, html, css and vue.js with jQuery and javascript when necessary.
- Revising pages based on feedback via tracking manager Clubhouse and updated Balsamiq wireframes.

Achievements

- Helped to build and deliver a Venue management system which was a huge project that took 6 months and had been wanted for many years.
- Modifying pages to suit custom requirements that were requested by clients.

COTTON ON

November 2018 to December 2018 (2 month contract)

CottonOn is a huge Australian fashion brand based in Geelong that has stores all around the world.

Front End Developer

Skills demonstrated

Technology: html, css, Salesforce CMS

Organisational Skills: Working in a fast-paced retail focused environment.

Roles and Responsibilities

- Working in the Marketing Department doing updates to multiple Cotton On websites in Salesforce CMS.
- Taking direction from Production Managers doing changes to be approved then getting sign off.

Achievements

- Turning around work in a short timeframe and successfully meeting deadlines

PRICELINE

March 2018 to September 2018 (6 month contract)

The Priceline head office is in Camberwell and their nationwide stores are a major retail presence in the beauty, cosmetics and pharmacy areas.

eDM Developer

Skills demonstrated

Technology: html, css

Organisational Skills: Working on multiple eDM campaigns simultaneously. Attending weekly Production meetings to keep the work schedule on track.

Roles and Responsibilities

- Based in the Marketing Department and building eDMs in Salesforce Marketing Cloud from supplied Photoshop files from Designers.
- Liaising with Designers if the design needed to be tweaked if I thought that the layout was too problematic to code for.

Achievements

- Managed the implementation of a design upgrade of header and footer areas in 9 daily edms sent to over 2 million members. It involved working out the best process and liaising with external production partners throughout the upgrade process to ensure the migration went smoothly.
- Introduced the use of ampScripts to work out a members reward value in an email subject line, so that the member could clearly see what points they needed to accrue to be able to advance to the next rewards tier.

COTTON ON

December 2017 (1 month contract)

Front End Developer

Skills demonstrated

Technology: html, css, jQuery

Organisational Skills: Keeping track of timelines as there was a deadline for a launch of two websites.

Roles and Responsibilities

- The Factorie brand was getting rebranded so my role was to build new home pages for the Australian and NZ versions of the Factorie websites.
- Working from enlarged colour printouts from designers building pages from scratch.
- Getting revisions from the designer on the printouts and making the necessary adjustments.

Achievements

- Finishing both website home pages in time for the launch.

CHE

December 2017 (1 month contract)

Che is a huge Advertising Agency that services nationwide brands in the TVC and digital areas.

Front End Developer and eDM Producer

Building responsive eDMs for Telstra and Mazda.

COMPUTERSHARE

October 2017 (1 month contract)

Digital Designer

Redesigned an [eDM](#) for a pitch.

The original is [here](#).

JETSTAR

July - August 2017 (2 month contract)

Digital Designer

Building responsive [eDMs](#) including css for countdown timer from supplied Photoshop file, and designing social media imagery.

KATHMANDU

March 2017 (1 month contract)

Front End Developer and eDM producer

Modified existing css to customise the UI of a [Stackla](#) widget

CHE

December 2016 (1 month)

Front End Developer

Skills demonstrated

Technology: html, css, jQuery

Organisational Skills: Prioritising work in order to meet a deadline.

Roles and Responsibilities

- Built a micro-site for [First Choice Liquor](#).
- Working from a supplied Photoshop file I had to cut it up and build the micro-site from scratch in html and css.

Achievements

- It was a challenging process as I couldn't see what the microsite looked like embedded within the First Choice Liquor site till the day before launch, so I had to build it being mindful of not having my css styles overriding the css styles of the parent site.

SALESFORCE

June 2016 - September 2016 (3 month contract)

Salesforce is an all round CMS that incorporates many features including a dedicated website and eDM build and publishing platform.

Production Specialist

Skills demonstrated

Technology: Salesforce Marketing Cloud, html, css

Organisational Skills: Liaising with major clients and attending daily meetups with interstate team members while maintaining a daily send schedule of eDMs.

Roles and Responsibilities

- Built an [eDM for Bank of Melbourne](#) that had customer personalisation.
- Sending out sms messages for Westpac banking customers

Achievements

- Bank of Melbourne personalisation was being trialled so I had to liaise with developers at BoM to make sure that the personalisation tags were being picked up correctly in eDMs and BoM landing pages.

CONTRACTS

Done in between longer-term contracts within 2017 and 2016

RACGP Front End Developer helping to finish off a new WordPress site for a conference.

Whybin Front End Developer coded html5 banners for [Medibank](#).

APOLLO MEDIA

August 2015 to December 2015 (Full time role but stood down after 4 months as the company went out of business)

Apollo Media was a start-up that was building reward based websites aimed at the general public.

Digital Designer and Front End Developer

Skills demonstrated

Technology: html, css, jQuery, php

Organisational Skills: Juggling design of logos alongside website designs and builds.

Roles and Responsibilities

- Designing and building the [company website and designing their logo](#).
- This involved looking at websites that the Manager liked then working up sketch based colour drafts.
- Building forms in php with help from the Lead Developer.
- Logo design which involved writing out word associations, coming up with initial sketches on paper, selecting suitable fonts, working up these concepts in Illustrator in b+w and then colour. Some examples are: [Apollo](#), [Offers Central](#) and [Startup Factory](#).

Achievements

- Designing logos that held up well and incorporating the look and feel into website builds.

VACC

October 2009 to June 2015 (5 years 5 months)

The VACC is the peak representative body in Victoria and Tasmania for businesses in the motor industry.

Digital Designer and Front End Developer

Skills demonstrated

Technology: html, css, javascript, jQuery, DotNetNuke

Organisational Skills: Working on multiple projects, client liaison.

Roles and Responsibilities

- Designing and building DotNetNuke content managed websites.
- Training internal staff and external clients.
- Construction of html emails and xsl coding for the e-Ticket website.

Achievements

- Bringing their bulk email process in house saving thousands of dollars per month.
- Helping to build an event ticket website called e-Ticket that was used for the Melbourne Motor Show.

MONASH UNIVERSITY, DEPARTMENT OF MARKETING

September 2005 to May 2009 (3 years 6 months)

Monash University is one The Group of 8 universities in Australia and has multiple campuses spread across Melbourne and Victoria.

Project Systems and Technical Support Officer

Skills demonstrated

Technology: html, css

Organisational Skills: Working with multiple stakeholders in a large organisation.

Roles and Responsibilities

- Designing and developing course books and DVDs for distance education.
- Maintenance of department websites.
- Developing learning modules using WebCT Vista.
- Helping staff with computer problems. Lecturing to students on website construction.

Achievements

- Re-branding of all printed and electronic material to achieve a modern look.
- Outsourced the production of materials to ensure better delivery timeframes and increased quality.
- Reorganising and optimising existing poor file structure to ensure full accessibility by other staff.

REFEREES

Felicity McIntosh	Marketing Manager, Priceline, 03 8855 3000
Jennifer Mullins	Senior Designer, Jetstar, 03 8628 3157
