Digital Experience • Web Strategy • UX & Conversion

Melbourne, Australia | 0402 942 708 | [LinkedIn](#) | [Online folio \(GitHub\)](#)

PROFILE

Digital experience professional with 7+ years building and transforming web platforms across Healthcare, Retail, and Media. Specialises in turning complex, inherited digital estates into clear, user-centred experiences that perform commercially. Comfortable working across the full spectrum, from shaping information architecture and customer journeys through to hands-on implementation and QA, with a consistent focus on usability, brand consistency, and measurable outcomes.

CORE SKILLS

Digital Strategy	Website architecture & IA • CRO & conversion optimisation • UX & customer journey design • Campaign & content planning
Platforms & CMS	WordPress (Divi, Elementor) • Salesforce Marketing Cloud • Adestra • Azure DevOps • Google Maps API
Frontend	HTML • CSS • JavaScript • jQuery • Vue.js • PHP • Git
Analytics & Tools	Google Analytics • Figma • Balsamiq • Postman • AI tooling (CoPilot, Claude) • Jira

EXPERIENCE

Website Manager | [MSI Australia](#) | Sep 2023 – June 2026

Sole digital owner of three interconnected websites for a national health care organisation. Responsible for strategy, UX improvements, content, and platform health across the estate.

- Redesign and build of a [complex costs page](#) using; (1) a [tabbed layout](#) and (2) a [stacked accordion](#) approach to reduce cognitive load and improve conversion pathways.
- Led a full server migration in December 2025 for 2½ weeks upgrading WordPress, PHP, and all plugins across three live sites to resolve accumulated technical debt and reduce security risk with zero downtime.
- Deployed a [web chat feature](#) to improve customer engagement, and a [Google Maps API integration](#) to improve the user journey for prospective patients.
- Built a conditional logic Outlook signature system deployed to all Australian staff across 12 role types, improving brand consistency at scale. A challenge was that it had to render correctly on [mobile clients](#) without being able to use media queries.
- Used AI tooling (CoPilot to translate and ChatGPT to check accuracy of the translation) across [six languages](#), improving efficiency on a recurring workflow.
- Designed and built a retro themed [contraceptive interactive](#) that mimicked 3D buttons to make it more visually engaging to interact with.
- Using just css on a navigation interface to achieve a [nice flowing effect on hover](#) to increase visitor engagement.

Digital Producer | [The New Daily](#) | Oct 2022 – Jun 2023

- Managed daily digital publishing operations for a national news platform, maintaining content accuracy and site quality under tight deadlines.
- Implemented a site-wide comments feature, improving reader engagement and community interaction.
- Managed daily eDM campaigns via the Adestra platform, maintaining audience engagement and send schedules.

UI/UX Developer | [Royal Australian College of Surgeons \(RACS\)](#) | Feb 2022 – Oct 2022

Embedded within the digital team to lead UX improvements across internal member portals and websites for a professional membership organisation of 7,000+ surgeons.

- Redesigned internal websites in [Figma](#) from a brand style guide, improving visual consistency and usability across multiple member-facing portals.
- Acted as the in-house UX advisor, consulting cross-functional teams on best practices for interface design and accessibility.
- Resolved a critical pagination bug (escalated to Microsoft) via a [targeted jQuery fix](#), preventing ongoing disruption to member portal users.
- Liaised directly with the Head Graphic Designer to ensure all digital work adhered to brand guidelines.
- Used css width calc property to apply a [fluid width](#) to an element that resizes proportionally to ensure a consistent UX across all device widths.

Front End Developer | [Tennis Australia](#) | Dec 2021 – Feb 2022

- Built HTML email campaigns for the Australian Open, working to tight production schedules and brand specifications.

Front End Developer (Contract) | [TALi](#) | Feb 2021 – Jul 2021

- Built eDMs for the international launch of the TALi educational app, and made UX improvements across multiple product portals.
- Advocated for [dynamic content strategies](#) in an eDM template to reduce ongoing maintenance overhead - recommendation adopted by the team.
- Resolved rendering issues in [online PDF reports](#), improving document quality and professional presentation.
- Developed a [Video in header background](#) that fades in and out when scrolling as an attempt to increase the user Engagement Rate on the page.

Web Developer | [Outdoor Education Group](#) | Mar 2019 – Mar 2020

Worked in a three-person development team to design and build internal web-based staff platforms from Balsamiq wireframes through to production.

- Delivered a business-critical Venue Management System over six months - a platform the organisation had required for years - built using Vue.js, PHP, HTML, and CSS.
- Managed multiple concurrent projects using Clubhouse, balancing stakeholder feedback cycles and iterative delivery.

Front End Developer (Various Contracts) | [Cotton On](#), [Priceline](#), [Salesforce](#) – via Agencies
Dec 2016 – Sep 2018

- Cotton On: Maintained and updated multiple brand websites in Salesforce; built new home pages for the Australian and NZ Factorie rebrand.
- Priceline: Built eDMs in Salesforce Marketing Cloud for daily sends to 2M+ members. Led a cross-partner header/footer redesign across 9 campaigns. Introduced AMPscript personalisation in subject lines to surface individual reward tier status, improving engagement.
- Salesforce: Built personalised eDMs for [Bank of Melbourne](#) where I liaised with client developers to validate personalisation tags across emails and landing pages.

EDUCATION

Advanced Diploma of Electronic Design - Victoria University, Melbourne

PROFESSIONAL DEVELOPMENT

- Regular attendee: Be Responsive, The Digital Designer's Toolbox, UX Melbourne, The UX Design Group of Melbourne, UX Bookclub.
- Reading: Design for the Real World, The Design of Everyday Things, The Inmates are Running the Asylum, Gamestorming, Design is a Job.

VOLUNTEERING

- [Robyn's Nest Animal Rescue](#) Fostering kittens and cats that were due to be put down and getting them eventually adopted.
- [Asylum Seekers Resource Centre \(ASRC\)](#) Assisting in food bank helping asylum seekers choose their weekly shopping.
- [Sudanese Australian Integrated Learning \(SAIL\)](#) Looking after Sudanese children on Saturday mornings
- [Melbourne Open House](#) I have worked as a location volunteer.
